

**INDORAMA PUBLIC SCHOOL, JAGDISHPUR**  
**SUMMER HOLIDAY HOME WORK**  
**CLASS 11A**  
**SESSION 2026-27**

Dear Students, These assignments as Holiday homework (HHW) prevents learning loss during breaks, reinforces classroom concepts, and builds crucial skills like independent study and time management. It helps students balance fun and academics, allowing them to return to school confident, organized, and prepared for the new term.

**HAPPY HOLIDAYS**

Dear Parents,

Warm greetings from IRPS Family!

We trust this letter finds you and your family in good health. As the summer break nears, we're delighted to share that our dedicated team, under the guidance of the Principal, has curated summer activities for your child.

These activities /assignments, covering all subjects, aim to keep your child engaged in learning and prepare them for the upcoming academic year. They offer opportunities for exploration, skill development, and maintaining a learning routine during the break.

Your support in ensuring your child completes and submits **these activities to be done by your child with your support to the respective class teacher on the first week of July of school reopening after the break** is i.e. **1<sup>st</sup> July to 6<sup>th</sup> July 2026** will be greatly appreciated. It will contribute to a positive start to the academic year and reinforce the knowledge acquired during the break.

For any queries or concerns, please reach out to the class teachers.

Thank you for your ongoing support and involvement in your child's education. We eagerly anticipate a productive and successful academic year ahead.

Educationally

yours,

Dr R K Dwivedi

Principal &

Team IRPS

Team

## **Holiday Homework**

### **Chemistry – Class XI**

#### **Chapter: Some Basic Concepts of Chemistry**

Students are instructed to prepare neat notes of all important topics in their chemistry notebook. Solve numerical problems based on mole concept, molarity, limiting reagent, and percentage yield. Practice conversion of mass into moles and moles into number of particles using Avogadro's number. Write and learn important laws such as the Law of Conservation of Mass, Law of Constant Proportions, and Gay-Lussac's Law. Prepare a chart showing SI units and significant figures with examples.

#### **Chapter: Periodic Classification and Periodicity in Properties**

Students are required to draw and label the modern periodic table neatly in their notebook and mark different groups and periods. Prepare short notes on alkali metals, alkaline earth metals, halogens, and noble gases. Compare the properties of elements across periods and down the groups. Practice questions related to trends in atomic size, metallic character, and ionization energy.

#### **Instructions:**

**Complete all work in a neat and systematic manner.**

**Use separate headings and subheadings for each topic.**

**Revise all NCERT examples and exercises.**
